MAGNETIC SIGNS
WE SPECIALIZE IN LARGE VOLUME PROJECTS
CALL FOR YOUR CUSTOM QUOTE!

Magnetics are usually sold in sizes such as 10" x 20", 12" x 24", 18" x 24". It is important to consider where the placement of your magnetic signs will be on the vehicle when choosing a size . . . and we can help you with that decision. Artype, Inc. encourage our customers to place magnetics in an easy to view area, clear of plastic body styles or trim that interfere with the magnetic's ability to adhere to the metal of your car, van, or truck. Magnetic signs from Artype, Inc. deliver a powerful message and can be removed or shared among several vehicles. This feature and the relatively inexpensive cost of this type of mobile advertising are what makes magnetic signs a popular option for business owners, real estate agents and truck fleets. Custom sizes available!
